A real life Angel donated her liver to help someone in need
– NOW SHE IS IN NEED and WE CAN HELP.

In Sept of 2005 Becky Atencio heard about a young man with a wife and two kids who was in desperate need. She felt led to selflessly donate part of her liver to help him. He was made well and is alive and thriving now. Becky is so happy to have been a part of his miraculous recovery. Soon though, it was discovered that in surgery the doctors had damaged the Vagus nerve on her stomach. A gastric pacemaker enabled her stomach to digest food temporarily, but her situation has worsened, and without intervention, Becky will die. She is only in her 40's. The doctors in our area are at a loss. Becky has an appointment scheduled with specialists at the Mayo Clinic in Rochester, Minnesota February 13th – February 21st and she needs our help to get there due to out of network expenses. Becky's friends are raising \$25,000 to help save her life.
